

Send your freight to the next event.

Shepard is proud to be the preferred logistics provider for NRECA PowerXchange and TechAdvantage 2025. To support exhibitors participating in consecutive events, we offer Caravan Services when we know a large number of exhibitors are moving directly from one event to another. **To participate in this caravan, all Material Handling Agreements for orders included in the caravan must be returned to the service desk on-site on 3/12 by 6:00 PM after you have packed up. Additionally, all caravan orders must request Priority Empty Stickers at the service desk to minimize wait times for your empties after the event.**

Register for Caravan Services with three easy steps:

- **Complete Form**
Please ensure all information in the form to the right is fully complete for registration.
- **Confirm Payment**
A credit card must be on file to utilize our Caravan Services.
- **Submit Request by Deadline**
All Caravan requests must be submitted by 03/06/2025.

Note: Material Handling fees for each event are billed separately and are not included in the Caravan Service.
